

May 14th 2020

Dear Valued Client,

After a lengthy but necessary period of time away from golf, I am delighted to announce the commencement of Sarah Bennett Golf Coaching phase 1 at Three Rivers Golf Club. The coaching will be delivered within the PGA guidelines.

We are fortunate to be able to return to the game we love after the serious situation we have encountered. As a result there will be some absolutely essential "Coaching procedures" which will need to be adhered to before, during and after your golf lesson.

Should clients be seen to disregard any of the points I will have no option but to terminate the lesson immediately at full cost to the client.

I have detailed below the areas regarding the way I will be conducting my sessions which shall be updated accordingly to any additional Government advice.

If there are any areas you are unclear please do not hesitate to contact me as it is vital these points are understood to protect yourself and all other golfers on the premises.

SBG PROCEDURES

I will be encouraging short game coaching & playing lessons (social distancing) which will see tee time challenges, flexibility will be required so I can fit in with general play. When arriving for your lesson please wait until the previous client has left the area. All golf shoes please are to be changed in the car park with no trolley hire available so carry bags advisable.

- Please bring your own equipment with you to all lesson types incl balls (putting) & tee pegs. We will discuss the lesson requirements before hand so you are fully aware of my procedures. Please ensure your grips are disinfected prior to each usage.
- Please bring antibacterial wipes with you and hand gel to use before, during & after the lesson. Hand washing prior & after the lesson is mandatory for both clients and myself
- The current social distancing and greeting is strictly in place (2 meters or more) so verbalisation will be minimal from this distance.
- A lesson video recap will be sent via Whats app or Coach Now (packages) to minimise "social verbalisation"
- I will mark an area with paint or coned area where I will observe and diagnose, this includes an area so I can demonstrate with my own golf equipment.
- If I feel necessary to "move" you into position I will use an alignment stick to maintain the guidelines which will be disinfected before and after the session.
- All flags and holes will be removed from the putting green
I have a mobile hole ensuring each client will only touch their own golf balls. This will be disinfected after each session.

When accessing the practice ground only for a lesson please do not use the bridge by the 18th hole, please walk in front of the clubhouse. I will call you when I am ready for our lesson. I will be washing my hands after each session so there may be a slight delay. You may feel the above is excessive but conducting a Professional and SAFE lesson is my key goal. I will be wearing a PPE mask and new gloves each lesson.

If at anytime before the lesson you display flu like symptoms please call me to reschedule our lesson.

Thank you I look forward to working with you all again enjoying our coaching slowly progressing to "normality" at the appropriate time.
